

The best part of *Ripeti Con Me!* is that the way the course is laid out is very motivating to push forward and not ponder over mistakes for too long. Just say it and move on, I like it a lot.

Walter Heath - Happy student

Think In Italian

2 Premium Courses in 1

A huge collection of **Italian audio lessons** and **short readings** sorted by level with slow **audio**, Italian **transcript**, and English **translation** to improve your speaking, listening, and reading skills.

"I like this course for all that it offers: the main daily lesson, the complementary reading, the grammar notes, the YouTube videos, and the community feeling in the comments and with the live chats. "

- *Walter Heath*

Walter's experience with Think In Italian

One of my long-standing members, Walter Heath, kindly offered to share his **success story** with my courses. Everything you read below is his contribution and this post has been published upon his approval. I hope that you'll find his **testimonial** more convincing than any sales pitch.

Years in Teaching

The Challenge

I have tried several language apps over the years but many of them do not **motivate** me to **speak** and **think in Italian**. I always get bored with the usual flashcard apps and repetitive learning patterns. I never felt the necessity of speaking since I don't interact with real people.

The Approach

Through Think in Italian, I was able to **practice all day** even when I'm at home or at work. I try to use new vocabulary whenever I can with my wife.

The **additional resources** make a great package. In the evenings we are always doing 1-2 readings. They are ordered by level, so we always know what to do next, and they are so short that it's a pleasure to unwind to them.

Think in Italian's Youtube content is awesome. I am a bit of a grammar freak so it gives me a great **sense of achievement** when I watch the vids without subtitles and I can get almost 85 percent of what is being talked about.

The Solution

By focusing on simple but very useful "**chunks**" of Italian grammar and vocabulary and incorporating them into a sequence of 30 sentences for each lesson, you learn incredibly **useful sentence structures** that allow you to craft your own. It's a wonderful system with 249 lessons that continue to meet my needs as a beginner to intermediate learner and will take me into advanced topics.

I **practice** Think in Italian with friends or my family. It's great that I feel the challenge of learning lots of words and vocabulary alike.

"*Ripeti con me!* is a mix of my years of experience teaching Italian and my own experiences learning other languages.

This is **the only course that prompts you to speak.**"

Think In Italian

Update after using Think in Italian

I am glad to say that after just **1 - 2 weeks of practicing the Italian readings** and I was proud to **jump to A1 almost immediately**. Subsequently, as a subscriber of Think In Italian's Youtube channel, I've participated in several live chats and practiced Italian live with the other viewers. After the many lessons I've learned from *Ripeti Con Me!*, I felt like it is not waddling through the exercises. Instead, it is a **fun and interactive learning** with beginners like me whom I've met through their YouTube live videos.

Thank you very much for creating this course and keep it up! Or shall I say continua cosi? ;)

My skills after using RCM

So many foreign language apps are all about the sparkle and pizzazz that can distract learners from the most important thing – **speaking the language**. After teaching Italian to many different people from all walks of life, I started to develop and mold a **unique formula** to successfully learn the language. By simply repeating sentences in Italian your brain is able to remember and form sentences almost subconsciously (like you did when you first learned your own language as a child). There is no better way to get started learning Italian than trial and error, so with my course, you **start speaking Italian from the first lesson**.
